

## Willow Class Spring Term 1

This term our topic is “Wonderful Weather” and we have been thinking about our big question – Why is weather wonderful?

We have been enjoying reading weather stories including Lost and Found and Noah's Ark. We were surprised to find a giant egg in our outdoor area and were even more surprised when it hatched a giant fluffy penguin called Waddles! Then we wrote some brilliant news reports about what had happened. Waddles has been enjoying reading books in our book corner ever since!

In geography we have been observing the weather and keeping a weather diary, although it was a little cold to spend too long watching the clouds go by....

In maths, reception children have been busy counting and finding different ways of making numbers up to 10. Year 1 have been counting in 10s and investigating numbers up to 100.

In Art and D&T we have also done a great job of designing and making our own Noah's arks as well as painting weather pictures.

And there is still more to learn about the weather! I wonder what we will do next?
